

# OLD MISSION PENINSULA SCHOOL

## Illness Protocols

Families and staff are asked to conduct health checks each morning before leaving their homes.

If any of the following 4 symptoms are detected, do not come to school:

- Fever (100.4°F or above) or chills
- Cough
- Shortness of breath or difficulty breathing
- New loss of taste or smell

If any of the following 7 symptoms are detected in combination with each other or any of the symptoms above, do not come to school.

- Fatigue
- Muscle or body aches
- Headache
- Sore throat
- Congestion or runny nose
- Nausea or vomiting
- Diarrhea

Parents are prohibited from sending their children to school with the use of fever reducing medications.

The wellness room will be used as a quarantining area if a child or adult becomes ill.

- Symptomatic students sent home from school should be kept home until they have tested negative of COVID-19, have clearance from their doctor to return, or have completely recovered according to [CDC guidelines](#).
- Staff who are considered high risk should consult with their doctor about additional protocols that they may need to follow to minimize risk.
